

A new workclub
where independents
meet art and design

Hiddenclub

WORK IN AN NEW INSPIRING CONTEXT

The Huidenclub workclub is the first workspace situated in the vicinity of artists' and designers' studios.

Gathering a community of like-minded entrepreneurs, creatives and producers, the Huidenclub offers a uniquely inspiring setting conceived by Johan Viladrich, with all the comfort of a modern convivial co-work.

Our workclub is situated in a monumental building between the old historical Delfshaven and the M4H makers' district.

We offer focus areas with both fixed and hot desks alongside areas to work and brainstorm as a team.

Our co-working space includes a library, an exhibition room to present your work or products, and a one-of-a-kind meeting room. Designed by Morph Collective, our meeting room offers all the modern facilities you need in a creative context.

As a member you will also have access to the creative facilities in our workshops. We facilitate these workshops for artists and designers to build and create in a professional environment.

More than a workspace, the Huidenclub offers its members access to a tailored programme of films, masterclasses, network moments with like-minded people, culinary and art events, and your own exhibition space.

As a member you also benefit from free invitations to art or design events, such as Art Rotterdam or Unseen.

MEETING ROOM
